I thought Mike's presentation included a lot (perhaps too much) information. I was able to get his power point from Sue W and also download the Region 10 Draft CC Adaptation Implementation Plan, which I've put in the pile to bring to Anchorage.

Otherwise, I thought it was a good conference call. And good points raised during the discussion. I also like your idea of a flyer.

We should get a hot chocolate during ATCEM when time permits and if the place still open downtown.

I was very happy that he said they would "make it work." I will call him later and emphasize the difficulties small tribes have in getting 638 certification. How did you think things went?

Good one and will be interesting to see how Sean/DOI responds...
